

1 Purpose

The purpose of this essay is to describe my research interests and make note of several works that are most relevant.

2 General Interests

In general, my interests lie and the intersection of the Labor/Education, Public, and Urban economics subfields. I have chosen to focus this essay on the application(s) of spatial econometrics to these subfields as this has recently become an area of great interest to me. asdf

I will first outline some key theoretical works in the area of spatial econometrics. Then, I will make reference to recent applied works that most closely resemble my own research interests. Finally, I will conclude by describing research ideas that I am currently pursuing.
